With Yu solid waste  
Yu is a big disgrace to di human race  
And when Yu mash up di earth  
Wha' go happen to wi blouse and skirt

Because this is un-sustainable  
Don't mek mi get angry  
Because some a unu too nasty

### ***Verse 1***

Remember Sir Isaac Newton  
And him third law of motion  
Him say for every action there is an equal and opposite reaction  
This is a call for deep examination  
Nuff a unu guilty and should be under conviction  
For unu contribution to this environmental degradation  
Every bwoy an' gyal woman an' man

No bun dem inna no incinerator  
Or else yu a destroy di ozone layer

Dat protect us from di heat of di scorcher

Like a torcher chamber

And like when oil inna bwoila

Hot like di equator.
