

Partnerships

NEPA establishes partnership with both governmental and non-governmental organizations to ensure the conservation, protection as well as the management of our natural resources, to increase and sustain public education and awareness, and to facilitate research and development. Some of these partnerships are also funded by the Agency through the Natural Resources Conservation Authority such as Jamaica Environment Trust Schools Environment Programme, the Jamaica Conservation Development Trust and the Montego Bay Marine Park to manage the Blue and John Crow Mountains and the Montego Bay Marine Park respectively.

Some of our other partnerships include:

Research and Development

University of the West Indies

University of Technology

Northern Caribbean University

Management of National and Marine Parks

National Heritage Trust

Forestry Department

Negril Environmental Protection Trust

Negril Coral Reef Preservation Society

Community Environmental Warden Training Programmes

Jamaica Fire Brigade

Ministry of Health

Jamaica Social Investment Fund

National Solid Waste Management Authority

For more information on our other partners and the type of partnerships contact:
